

Closing Time — Keys

Semisonic cover • Key of G major • ~92 bpm

Stay on the **G major scale**: **G A B C D E F#** (the trap is **F** — always **F#**). The whole song vamps **G D Am C** except the **bridge**, which drops into flats (**Bb Ab Eb Cm**) — switch your note pool there. Hollow dot = root/bass. Map at the bottom.

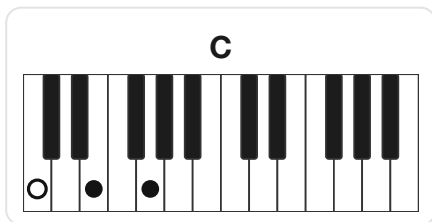

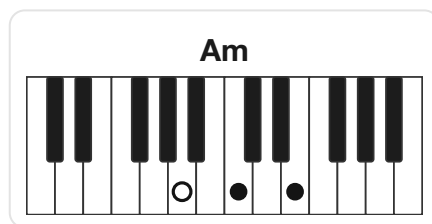

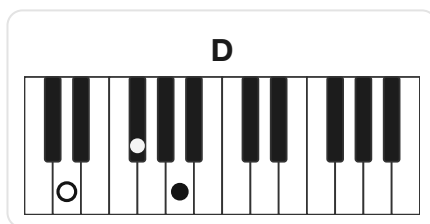

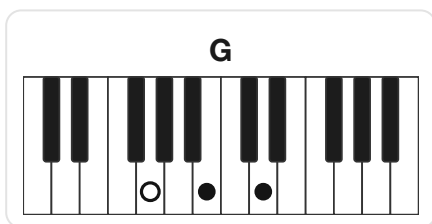

1 • Intro x3

| G | D | Am | C |

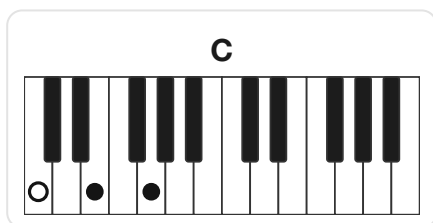

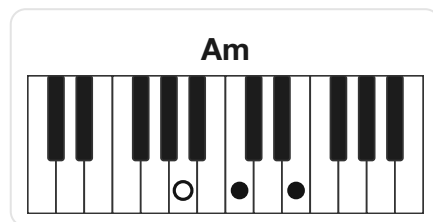

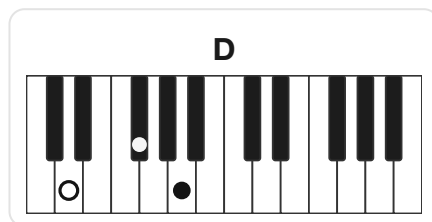

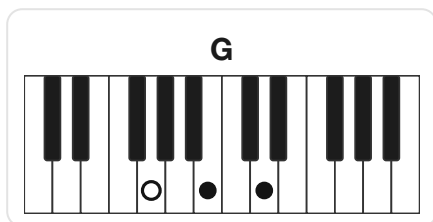

2 • Verse

| G D | Am C G D Am C | — repeats per couplet

3 • Chorus

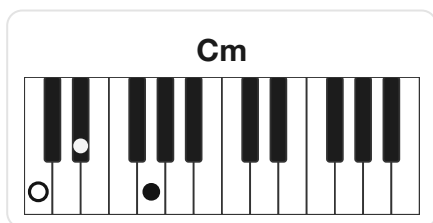

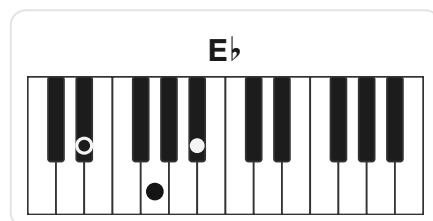

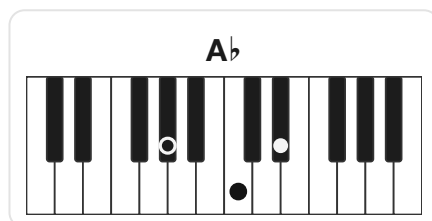

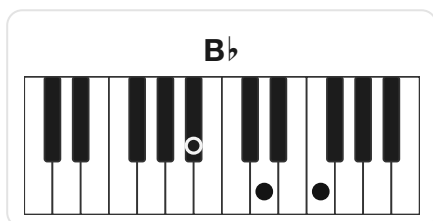

| G D Am C | x3 • then • | G D Am C | ("*Take me home*")

4 • Bridge

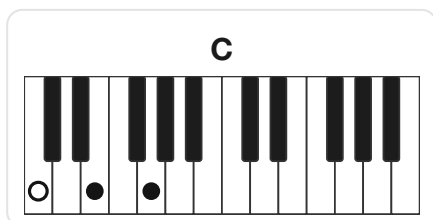

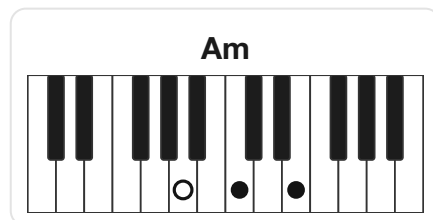

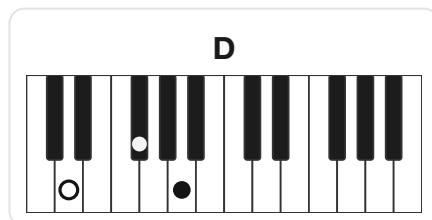

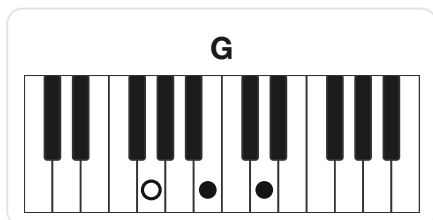

| B $\flat$ | A $\flat$ | E $\flat$ | Cm | $\times 3$ • then • | G D Am C | $\times 2$ back home

Out-of-key borrowed section — see the second note map below.

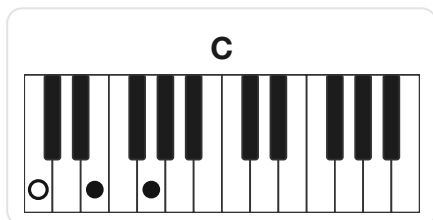

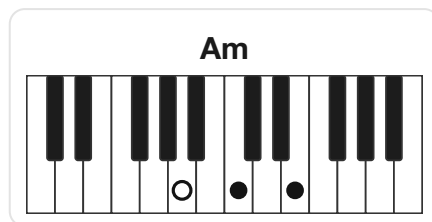

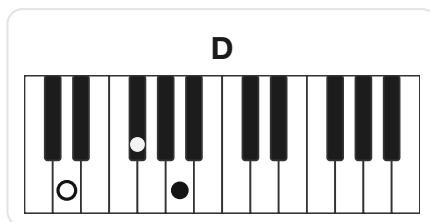

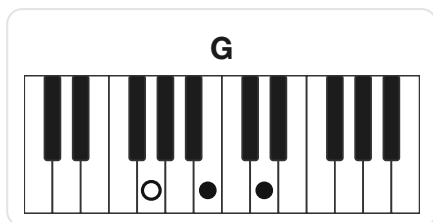

5 • Solo / Instrumental

| G D Am C | — same four-chord vamp, no vocals

6 • Outro

| G D | Am C G D Am C G |

Play order

Intro → Verse → Chorus → Verse → Chorus → **Bridge** → Solo → Verse → Chorus x2 → Instrumental → Outro

Which notes to play

Main song (G D Am C):

C#	D#	F#	G#	A#	
					← black keys
x	x	✓	x	x	

C	D	E	F	G	A	B
✓	✓	✓	x	✓	✓	✓

← white keys

✓ play (in key, G major) x avoid (out of key)
F# is the ONLY black key here – play it freely

Bridge (Bb Ab Eb Cm) — switch pools, think Bb major / G minor:

C#	D#	F#	G#	A#	
					← black keys
x	✓	x	✓	✓	

C	D	E	F	G	A	B
✓	x	✓	✓	✓	x	x

← white keys

play Eb Ab Bb + C F G avoid the major-key B/D/A here
resolve back to G major when the "G D Am C" returns

Chords from the pasted Ultimate-Guitar chart (G D Am C verse/chorus; Bb Ab Eb Cm bridge). Key analysis from the G-major scale; bridge note pool is the borrowed flat side. Verify against the recording.
