Bass notes

Chord	Feel
B	Not diatonic — it's the V of Em, leaning the line into the next chord. Lean on the D# to sell the pull; it's the one note that isn't in the key.
D	The dominant. In the Build it's a full-bar vamp — ride steady eighths and let the tension stack before the final chorus lands on G.

Killin' It — Keys

Foxy Shazam cover • Key of G major • ~143 bpm

Stay on the **G major scale** and you can't go wrong: **G A B C D E F#**. The sneaky one is **F** — in this key it's always **F#**, never plain F.

Keyboard map — ✓ play, ✗ avoid

black:

C#	D#	F#	G#	A#
✗	✗*	✓	✗	✗

C	D	E	F	G	A	B
✓	✓	✓	✗	✓	✓	✓

✓ = in key (G major) ✗ = out, avoid

F# is the **ONLY** black key you want

*D# only over the B chord — see below

In key — mash these

G • A • B • C • D • E • F# ← the 7 home notes

Out of key — avoid (passing tones only, don't land on them)

G#/A♭ • A#/B♭ • C#/D♭ • D#/E♭ • F ♮

The one exception

Every chord is pure G-major **except B**. The **B** chord (B–D#–F#) is borrowed and pulls in a **D#**. So when the band hits **B** — end of "*catch my fall*" and into the pre-chorus — **D# is good for that one chord only**. Everywhere else, D# is a clam.

Killin' It — Drums

143 bpm · Key of G

Intro — bars 1-8

Riff entry over G–Em–C–B. Kick and toms only for the first phrase, snare and hats lock in on the second — the groove should feel like it's arriving, not already landed.

1-4 bass drum, toms, fill to 5 "Oh, oh, oh, oh" 5-8 bass drum, snare, hi-hats on quarters, fill to 9 "Oh, oh, oh, oh"

Verse 1 — bars 9-32

Settled verse pocket — hi-hats on eighths, snare on 2 and 4. Pull back on the two-bar "catch my fall" / "fool" tags so they breathe.

9-12 bass drum, snare, hi-hats on eighths "I go dancing on the ceiling sometimes" 13-16 bass drum, snare, hi-hats on eighths "It's always fun but I get scared of the climb" 17-18 bass drum, snare, hi-hats on quarters (2 bars) "Will you catch my fall?" 19-20 bass drum, snare, fill to 21 (2 bars) "Catch my fall?" 21-24 bass drum, snare, hi-hats on eighths "The notes I play put a stain on my heart" 25-28 bass drum, snare, hi-hats on eighths "Some songs I hate, some I hate even more" 29-30 bass drum, snare, hi-hats on quarters (2 bars) "I act a fool" 31-32 bass drum, snare, fill to 33 (2 bars) "Am I the fool?"

Full kit, ride opens the texture, crash on each four-bar downbeat. This is the payoff — play it big and steady.

Performance notes

Moment	Note
Intro entry (bars 1-8)	Two-stage: toms/kick only → full groove at bar 5. The bar-5 snare is the first one in the song — don't rush it.
Pre-chorus builds (33, 89)	Both pre-choruses are crescendos into the chorus downbeat. Snare roll up, crash on the "1" of the chorus.
Verse hi-hat vs. chorus ride	Every chorus swaps hi-hat for ride — the texture should register as an arrival, not just a timbre change.
Bridge half-time (bars 133-140)	Drop to half-time and let "We are not ordinary things" sit heavy. Resist filling the space.
Build snare (bars 143-152)	Snare on every beat under the D vamp — the only spot it happens. Ratchet dynamics each pass so the last chorus hits.
